

Lavin Sheikholeslami

AI Engineer | Machine Learning & Deep Learning Developer

Email	lavinsheaikholeslami6@gmail.com
Portfolio	Lavin Dev
Specialization	Artificial Intelligence & Intelligent Systems

Professional Summary

Computer Engineering student focused on Artificial Intelligence, Machine Learning and Deep Learning. Passionate about designing intelligent systems, developing AI applications and exploring research-oriented solutions using modern technologies.

Education

Bachelor of Computer Engineering
Islamic Azad University - Tehran Central Branch

Focus Areas: Artificial Intelligence, Machine Learning, Deep Learning, Software Engineering, Intelligent Systems.

Technical Skills

Programming: Python, JavaScript, HTML, CSS

AI: Machine Learning, Deep Learning, Neural Networks, CNN, Generative AI, NLP, Computer Vision, Reinforcement Learning Fundamentals

Tools: TensorFlow, Keras, PyTorch, OpenCV, Scikit-learn, Flask, Django, Git.

Projects

AI Cancer Detection System

Deep Learning based medical image analysis project using computer vision methods.

Face Tracking System

Computer vision application for detecting and tracking faces using AI techniques.

Intelligent AI Applications

Development of machine learning based software solutions.

Embedded AI Systems

Exploring integration of electronics, programming and artificial intelligence.

Research Interests

Artificial Intelligence, Deep Learning, Large Language Models, Generative AI, Computer Vision, Natural Language Processing, Healthcare AI and Intelligent Automation.

Certificates

Artificial Intelligence Certificate

Prompt Engineering Certificate

ICDL Certificate

Soft Skills

Problem Solving, Analytical Thinking, Research Ability, Continuous Learning, Technical Documentation and Team Collaboration.

Languages

English - Intermediate Level (B2). Focused on improving technical communication and academic English.

Career Objective

Seeking opportunities to contribute to innovative AI projects, research-oriented development and professional growth as an Artificial Intelligence Engineer.
